All large, noncollapsible strollers must be checked. Some airlines allow gate-checking, while others only permit checking at the ticket counter.  
Most airlines allow carry-on musical instruments if they can be stowed in an overhead bin; larger musical instruments must be checked.  
Some airlines allow sporting equipment to be carried onboard; others require all sporting equipment to be checked.  
Please contact your airline for up-to-date information regarding strollers, musical instruments, sporting equipment, and other oversized items.
